A. R. R. L.

West Hartford, Conn.

Attention Mr. Huntoon:

Can you give me an opinion as to whether or not re-broadcasting an Amateur Station by an amateur is allowable?

A typical example would be as follows:

W3VKH on 10 Meters thru W3NXF on 75 to W9OTF
W9OTF on 20 Meters thru W9SQK on 75 to W3VKH

There would be no Duplex worked, and the Station being rebroadcasted would control the Station re-broadcasting him.
At the end of his Transmission--when he says over both Stations, would be turned off by the respective Operators.

To me it is a case of remotely controlling a station without the controlled station being automatic.

Your opinion of the Subject would be greatly appreciated by the Milwaukee Radio Amateurs Club.

Very truly yours,

Cy Shallow W9SQK
